

MODERN CUTTING EDGE SCIENCE & TECHNOLOGY

Using cutting edge technology and equipment, we are able to achieve the most rapid response time. Our computerized Dispatch Communication Centre uses International Evidence based Electronic triage system that triages the main illness or injury but also looks for symptoms that may make the call higher priority. Computer-aided dispatch enables us to respond quickly and appropriately to any situation while also pre-arrival giving instructions to the caller to minimize secondary injury.

ADVANCED AMBULANCES

Our ambulances are outfitted with specialized equipment designed to deal with any emergency interventions including field emergency surgeries anesthesia and blood transfusions.

WHEN EVERY SECOND COUNTS!

In the fight for survival, time is the enemy. At LIMEAR using the latest techniques and technology, we bring the hospital intensive care unit to you. From the moment a call is made to us, the battle against time begins. The decisions made in the first 60 minutes of major illness or injury are the difference between life and death. In the race against the clock, LIMEAR Doctors and Paramedics take the hospital to those at the very edge of life to save time and lives, no matter the day, time, place and risk.

PRIVATE AIR AMBULANCE, MEDICAL ESCORTS, COMMERCIAL AIRLINE MEDICAL STRETCHERS AND MORE..

LIMEAR Ambulance has been providing air ambulance services and air medical flight services for nearly 2 years. With an impeccable safety record and high satisfaction rating, we rightfully earned the trust of many families, hospitals, and dignitaries. We offer many kinds of medical air services, including bedside-to-bedside air ambulance flights, medical air evacuation, commercial airline stretchers with medical escorts as well as business-class cabin air medical assistance with medical flight attendant.

By choosing us, you can be rest assured you are in the hands of capable, highly trained medical flight staff and worldwide air ambulance professionals. We have earned the reputation of being a leader in critical care emergency medical services which distinguishes us from many ambulance companies and air medical providers.

LIMEAR Ambulance is also establishing a reputation in the international air ambulance services and global air medical flights, repatriating and expatriating patients all over the world. Since inception, we have been involved in tens of international air evacuation flights and emergency medical flights, sending medevac jets to disaster areas and search and rescue services.

HIGHLY TRAINED EXPERTS

Our dedicated team of Emergency Medical Dispatchers, Doctors, Clinicians and Nurses work 24/7 to provide comprehensive, quality pre-hospital care. Whatever the illness or injury, our care providers are equipped with expert skills and equipment to bring lifesaving interventions wherever you are. We provide quality care and great customer service from the first emergency call to handover for definitive care where necessary.

ACCLAIMED & ACCREDITED

We are trained, accredited and certified by International Academies of Emergency Dispatch (IAED); Our personnel undergo continuous international standard field training making them the right team to have in an emergency.
